300 Smith Street
Farmingdale, NY 11735

Dear Mr. Horowitz,

I would like to thank you personally for honoring me with the title of Linda Horowitz Cancer Research Foundation Clinical Scholar.

Although I never had the pleasure of meeting your wife, I can see through your daughter Jill that she must have been an incredible wife and mother and a person who would inspire others to live their lives more fully, more passionately, and with the courage to fight.

My vocation as an academic gastroenterologist that specializes in gastrointestinal malignancies gives me the opportunity to touch people's lives at very difficult times. Your generosity will allow me to continue to serve my patients by affording the protected research time needed to study and to fight these diseases. I am honored and humbled by this appointment and aspire to achieve great strides in advancing the prevention and treatment of pancreatic and other gastrointestinal malignancies. It is my hope that, together, we will one day be able to spare other families the devastating loss that you, Jill and Jeff, and Linda's many family and friends have had to endure.

I look forward to seeing you and Jill at the Monahan Center on May 4th. It will give me an opportunity to share with you my current research and plans for future studies.

With gratitude and appreciation,

Felice Schnoll-Sussman, MD
